"Matters of Spirituality in Disaster Ministry"

Spirituality speaks to the process that each person uses to find meaning in his or her life experiences. Understanding spirituality provides a foundation for providing spiritual care at the time of a disaster - when our sense of security in the rhythm of our daily living is overwhelmed by the reality of a disaster, we raise questions about life's meaning and the beliefs we have always held. Spiritual care after crisis is about accompanying people with presence, comfort and support.

Presenters:
